ZebraDesigner™ Pro

Label Design Application

Featuring an intuitive, Windows®-based interface and a WYSIWYG label designer, ZebraDesigner and ZebraDesigner Pro make creating complex bar code label designs and format changes "click" simple. The ZebraDesigner family of products works with every kind of Zebra bar code label printer.

ZebraDesigner and ZebraDesigner Pro support the following languages:

- Danish
- English
- Finnish
- French
- German
- Hebrew
- Italian
- Japanese
- Polish
- Portuguese
- Russian
- Simplified Chinese
- Spanish
- Thai
- Traditional Chinese
- Ukrainian

Powerful Features in an Easy-to-Use Package

Offering both label design features and printer configuration tools to enable printing, ZebraDesigner and ZebraDesigner Pro bring new ease of use and power to the desktop. Built on an entirely new platform and offering the most frequently needed features, the ZebraDesigner family introduces a new level of access to printer capabilities than previously available. Designing a label has never been easier!

Be in control with versatile, simple tools.

With the help of the software's new Design and RFID Wizards, it's easy to create complex labels based on fixed or variable data. Also gain greater control over printer settings and memory using the application's printer configuration. Installation is easy; you no longer need a hardware key to get started. And you can count on the optimized printer drivers to fully leverage the power and flexibility of Zebra's full line of printers. When you add it all up—ZebraDesigner and ZebraDesigner Pro deliver.

New Possibilities

ZebraDesigner and ZebraDesigner Pro offer a valuable assortment of features for your label design needs. Newer users will appreciate the powerful features that make creating and printing labels a snap.

ZebraDesigner

Feature Matrix

ZebraDesigner comes with a free set of printer drivers that offer high performance and control over the settings of your Zebra printers. Because of their unique features, the ZebraDesigner drivers can also help you get the most from your Zebra printer when printing from other Windows based programs. For best results, use the drivers with the ZebraDesigner software.

An easy-to-use driver installation utility makes it simple to start taking the advantage of the ZebraDesigner Printer Drivers.

ZEBRALINK™ SOLUTIONS

With ZebraLink Solutions, you can take advantage of the latest innovations today and tomorrow. Zebra is continually adding new features and options to give you more ways to connect, more ways to control your printers, and more ways to manage your enterprise.

ZebraNet™ Bridge Enterprise—Centrally manage Zebra printers from a single PC screen anywhere on your global network.

ZebraNet® Wireless Plus—Delivers wireless security and new wireless capabilities.

Global Printing—Unicode™ compliant for fast multi-language, on demand thermal printing out of the box.

XML-enabled printing—Direct-connect integration for bar code label printing that eliminates license fees and printer server hardware, and lowers customization and programming costs.
