ZQ300/ZQ300 Plus Series Printers

Class-leading mobile printing versatility, durability and remote management

Mobile printing capabilities in your retail store directly impact customer service quality and associate productivity. Time spent by your field workers writing receipts could be time spent making more customer visits. The Zebra ZQ300/ZQ300 Plus Series printers let your associates do it all. With receipt printing, associates can ring up sales anywhere in the store. With on-the-spot printing of labels, store associates can complete markups, markdowns and shelf label audits faster and more accurately. Choose the dark grey color scheme with scuff resistant exterior adding extra protection for demanding environments and outdoor use or the more contemporary silver and black color scheme—perfect for design conscious retail customers. The ZQ300 Plus Series delivers the same features and specifications as the ZQ300 Series, using redesigned electronics for long-term product continuity and availability. The ZQ300 Plus printers require new, different firmware and drivers.

More Versatility For More Value

Connect to Virtually Any Handheld
Pair the ZQ300/ZQ300 Plus Series with practically any mobile device—any Bluetooth®-enabled Zebra mobile handheld computer and tablet, as well as any Android™, iOS®, Windows® CE and Windows Mobile device. It's also MFi certified for iOS devices.

One Printer—Dual Capabilities: Receipts and Labels
Now, one printer can do double duty: the same printer your store associates use for point of sale transactions can also print labels for shelves, item markdowns and markups.

Print Inside—and Outdoors
With IP54 sealing and support for water-resistant media, you can count on the indoor and outdoor model to print legible text and scannable barcodes, even in the rain or snow.

Global Media Support
The ZQ300/ZQ300 Plus Series accommodates international metric and US media widths.

Less Waste with Linerless Media
Go greener with linerless media. Workers no longer need to manage used liner material throughout their shift. And since linerless media has up to 60% more labels per roll, it requires fewer roll changes, improving printer uptime—and worker productivity.

Superior Industrial Design

Sleek on the Outside, Superior Zebra Design on the Inside
The lightweight design ensures user comfort all shift long. The slim profile makes it easy to use in tight spaces. And while its contemporary look fits into the most design-conscious retail store, you get the durability for which Zebra is famous. It's the only printer in its class to offer triple durability specifications: IP54 sealing, and specifications for a 5 ft./1.5 m drop and 500-drop tumble, which simulates the real-world tumbling that follows a drop.

Faster, Easier and Highly Reliable Wireless Connections

The Latest Wireless Connections for Faster Printing
Enjoy superior printing speeds and power efficiency with the latest in Bluetooth connectivity, Bluetooth Classic and Low Energy (BLE). And with support for WLAN 802.11ac and the latest Wi-Fi™ security protocols, you get blazing fast and secure connections.

Robust and Reliable Connectivity
Zebra's patented Power Smart Print Technology™ offloads processing from the printer CPU, freeing up processing power to better manage wireless communications, giving you more consistent and dependable wireless connections for maximum productivity.

Split-Second, Tap-To-Pair Simplicity
The integrated NFC tag allows users to pair the ZQ300/ZQ300 Plus Series with any Zebra NFC-enabled mobile device with a quick tap. Even new and temporary workers are up and running in seconds.

Maximize Battery Power and Minimize Battery Management Time and Cost

Full-Shift Power and Extraordinary Battery Management
The PowerPrecision+ 2280 mAh battery, a unique sleep mode, plus patented Power Smart Print Technology™ combine to minimize power requirements, offering one of the longest cycle times in this class. A wealth of battery metrics makes it easier than ever to identify and replace aging batteries before they impact productivity.

Power-Saving Sleep Mode with Instant Wake
This intelligent printer automatically enters sleep mode when it is idle, and automatically wakes up upon receipt of a printing job.

Reduce Battery Power Consumption Up to 30 Percent
While competitive devices provide a constant level of power, the ZQ300/ZQ300 Plus Series print speed is adjusted dynamically in real time with patented Power Smart Print Technology™—using many factors, including motor torque, battery and print head temperature, print density and more. As a result, power consumption is reduced by an average of 20 to 30 percent per battery cycle.

The Most Charging Options for Maximum Flexibility and Scalability
Multi-slot printer and battery chargers—which can also accommodate select Zebra mobile computers—make it easy to cost-effectively create a rack-based backroom charging station for all your devices. Single-slot printer and battery chargers are ideal on any desk. And with the AC-to-USB power adapter, users can simply plug the printer into any outlet to charge.

Superior Printer Management

Industry-First Application for Easy, Remote Management
Zebra's one-of-a-kind Bluetooth Remote Management application gives you real-time visibility and remote management of all ZQ300/ZQ300 Plus Series printers that are connected to any Android device via Bluetooth. This application collects and sends a wealth of information about the ZQ300/ZQ300 Plus Series to your Mobile Device Management (MDM) solution—either Zebra's Printer Profile Manager Enterprise printer management software or SOTI MobiControl. Now, the same tool you use to remotely manage your other mobile devices also allows you to easily update, monitor and troubleshoot your mobile printers, all in real-time from a remote central location. And since this solution utilizes a secondary Bluetooth communication channel, it won't interfere with ZQ300/ZQ300 Plus Series printing.

Zebra Print DNA–Your Printers' Built-In Advantage
Print DNA's suite of software capabilities leverages everything we've learned about technology, users and thousands of use cases. Stay a step ahead with remote management tools, heightened security, and ongoing updates, so your printers work at their highest potential.

Optional Printer Management Services for Maximum Flexibility
Our cloud- and subscription-based Asset Visibility Service (AVS) provides insight into the basic health information and proactive steps required to keep your ZQ300/ZQ300 Plus Series printers up and running—all for just pennies a day. Operational Visibility Service (OVS) connects to an MDM and allows you to monitor just about any aspect of your Zebra printer, as well service and repair status. See the current status and disposition of all of your printers, printers at a specific site, specific models or a specific printer—and much more.

Consistently Exceptional Zebra Certified Supplies
Printing supplies can impact everything from printhead lifespan to operational efficiency. That's why we design, produce and rigorously pretest our own line of thermal printing supplies to ensure consistent, optimized performance in your Zebra printer.

Maximize Printer Availability with Zebra OneCare™ Services
Get unmatched support—direct from the manufacturer—with live agent telephone technical support, comprehensive coverage, including accidental damage and defined repair and turnaround times. Plus, optional services like Device Commissioning, Onsite Repair, Battery Refresh and Replacement Service and Express Shipping let you tailor your service plan to your individual business needs.
